Dear Andy:

I wanted to let you know how much we enjoyed Rock and Pop Masters (Larry Hoppen, Jimi Jamison, Dave Jenkins, John Cafferty and Michael "Tunes" Antunes, Charlie Morgan, Lane Hoppen, Barry Dunaway, and Jerry Riggs).

When they began to play they brought my group to their feet and they never sat down again. After the band was finished with their last encore the group still did not leave the dance floor, people just stood around overwhelmed. They had such a great time. We all had heard all of their songs at some time in our lives. The group brought back memories to everyone there.

This is the only entertainment that I have had requests for a repeat performance. Thanks for the best time our group has ever had.

Sincerely,

*Linna Morgan*
