I wish to extend my gratitude on behalf of my club and our district for the outstanding concert your organization put on in the City of Weston. There was a phenomenal turnout of over 5,000 people which provided Rotary with exceptional exposure within the community. This was a “trifecta” partnership where the city, RPM and Rotary all benefited from the event.

I was also pleased with the diversity of those in attendance. Young and old alike were on their feet dancing in front of the stage and around the park most of the night. Even weeks after the show residents have come up to me to share their thrill and enjoyment of that evening.

I remember listening to these incredible performances by the star singers as a youth and it was like they never changed. They performed exceptionally and were very professional. The band members and the producers were a pleasure to deal with and I am grateful that they took the time to meet and greet our sponsors after the concert.

I look forward to any future performances RPM puts on with the Rotary Club of Weston or any other Rotary event.

Sincerely,

Jim Norton, Governor
Rotary International District 6990
